We haven't seen any Republican log cabins and cider barrels around here that were to have enlivened the campaign. The Republicans are dead as mackerels.

Stop to think over the matter. Water works would not add one iota to the pureness of the water we would use, for in all probability it would be taken out of the river.

How The Tariff On Wool

Benefits the Farmer \$3.30 and Injures Him \$17.57.

Tax Payer in Kenton News.

The tariff is not our issue, but we like to have the people see it in its correct light. A writer to the Lance says:

"As your paper gives all reasonable sides and lengths a hearing, I ask a place for the following extracts taken from a letter of Mr. Pierce Pearson, one of the most successful farmers of Tompkins county, New York:

"According to the census of 1875 there were in the town of Dryden 4,746 sheep, owned by 978 farmers, an average of 7 sheep to each farmer. The average weight of each fleece was 4.62 lbs., an average clip of 33 lbs. of wool to each farmer. Upon this grade of wool there is at present as a protection to the wool growers an import tax of 10 cents a pound. Assuming that the farmers receive the full benefit of this protection in the sale of his wool, the farmers of Dryden on an average receive a benefit of just \$3.30.

"The average number of persons in each family in Dryden was 4.10 for whom the head of family has to purchase woolen supplies at an average cost of \$10 for each person; a very moderate estimate. A total of \$41 for each family. In the purchase of these supplies he pays an average import tax of 75 per cent, on the import cost of his goods.

"Since we give the farmer the benefit of 10 cents a pound import duty on his wool, it is fair that we charge him with the import tax on his woolen goods; in doing this his account with the tariff stands as follows: He derives a benefit from protection on his wool of \$3.30 and pays for the protection of his \$42.00 worth of woolen supplies an average import tax of 75 per cent, on the import cost which is \$22.43, thereby increasing the cost of these supplies \$17.57 in consequence of the tariff.

"By this single deal with the tariff, the farmers of Dryden will find instead of a profit in consequence of the tariff they are out of pocket the difference between \$3.30 (benefits derived from duty on wool) and \$17.57 (import tax on his woolen supplies) which is \$14.27."

The above strikes me as covering the ground very clearly, and puts the whole question in a nutshell.

Wanted.

New Dentistry.

We direct the attention of the five thousand readers of the NORTHWEST to the card of Dr. Wm. T. Binzley, who has established a dentistry in rooms over Humphrey's Drug Store. Dr. Tracy, Saturday night, at the Rink. Free! Free! Free!

Dr. Tracy has just returned from the east, having purchased one of the most perfect and powerful double Stereoskopes in the country, capable of illuminating a dissolving view and magnifying it to 30 feet in diameter. The light used excels the most powerful electric arc. Part 1. The Mississippi of intemperance. Part 2. Ten nights in a bar room. Part 3. Biblical Allegories. Part 4. Grand transformation scenes, illustrating the beautiful Allegory, "Book of Ages." No such treat ever before presented to the people of Napoleon. The lecture will continue all next week, commencing Sunday night. An admission fee of 10 cents will be taken at the door.

On 17 acres of land near Perryburg 133 bushels of clover seed were produced. The seed was sold for \$5.35 a bushel, netting \$711, or a nice profit on 17 acres.—Wood Co. Dem.

Cash wheat reached \$1 in the Chicago market Saturday. This is, in round figures, 30 cents above the price a year ago. It has long been a saying that there would be no more dollar wheat, and there has been none for five years. The advance, looked at from the seller's standpoint, makes this country about \$125,000,000 better off than it was this time last year. This money will be received largely by the Northwest, whether from foreign buyers or home consumers, and will prove a great stimulus to all branches of business in that section.—Cm. Post.

It may not generally be known that bicycles have rights on the public highways that persons in vehicles are bound to respect. A wheelman is entitled to half the road the same as though he were in a carriage, and he can demand that right. Persons who think the wheelman must go in the ditch when a horse passes will do well to bear this in mind.

South Ridge Alive!

Pole Raising and Speeches Saturday Evening.

Saturday afternoon and evening was a gala time for the staunch Democrats of the South Ridge, when they raised a splendid hickory pole and were addressed by C. F. Clement in German, and Jas. P. Ragan in English. What was said, being good Democratic doctrine and the truth, was well received by the large crowd present, and will bear good fruit in November.

Pleasant township, which is one of the most reliable townships in the county, is solid for the ticket from top to bottom. Outrageous lying and vituperation of the enemy don't effect them in the least, and their voice will be heard in November!
